Pricing and Ordering

Since all paintings are unique, there is no “one price fits all.” Pricing depends on the subject matter, detail involved, and size of painting.

My normal painting is 16”x20” inches on Arches 100% cotton fiber archival paper. which works well framed to around 26”x32.” Most paintings of that size are \$375. Larger (up to 22x28) and paintings with extreme detail are priced individually.

Your photos serve as reference and will be very close in scale and detail. If necessary, I can take the photos depending on location.
